DEAD HEAT AGAIN

Neither Kingston Nor Santa Anna Could Win, and Finish on a Line.

RECKON WINS ALL THE WAY.

Beats Count and Banquet in the Fourth Race, a Handicap, To-Day.

THE WINNERS AT CLIFTON.

Zingara Opens the Races To-Day by Taking the First.

RACE TRACK, SHEPHERD BAY.

Sept. 1.—The attendance here this afternoon was of low water mark. This was to be expected, however, after the crowd of yesterday. The threatening weather also had a great deal to do with the number of chairs left empty. Rain fell just as most people were preparing to go to the track, and many turned back.

Not enough rain fell to turn the track, which was in good condition and fast.

The opening event was a hard nut for the talent to crack. Kingston, Lady Violet, Sirocco, Tormentor, Yemen and many other speedy sprinters were to the post. There was a great diversity of opinion as to the winner and each was a result good prices could be had.

Kingston was always a slight favorite. Lady Violet and Sirocco had plenty of followers, and the Tormentor put their money down on Santa Anna, went at him in the last half mile, but he was not fast enough to beat the Westerner.

The race resulted in a pretty contest. Kingston was the favorite, but he was not fast enough to beat the Westerner.

The best he could do, however, was to secure second, and he was not fast enough to beat the Westerner.

He Easily Captures the \$10,000 Hartford Purses at Fleetwood.

Manager Breaks the Track's Half Mile Pacing Record in 1.01 3-4.

Another Suspected Case Now Being Investigated.

New York Health Authorities Consulted in the Matter.

By the report given out by Dr. Edson, of the Health Board, this afternoon it has been shown that at least one of the mysterious cases of illness in Jersey City was due to Asiatic cholera.

There were two cases in the City Hospital, in that city, one a man and the other a woman.

The man died a few days ago, and there was so much doubt as to the cause of his sickness and death that Dr. D. W. Benjamin, Jersey City's Health Inspector, and Dr. A. Clark Hunt, State Sanitary Inspector, decided to call in experts connected with the Board of Health in this city.

As a result, Dr. Doy, Chief Inspector of Contagious Diseases, visited the hospital in Jersey City where the patient, Martin Crowe, died, and got certain material from the body necessary to make a bacteriological examination.

The result was made known today. The case of the other patient, Mrs. Rhoda Black, is still under investigation.

The report made by Herman M. Birge, Chief Inspector of Pathology, Bacteriology and Disinfection, reads as follows:

"I have the honor to report that the bacteriological examination of the material obtained from the body of Martin Crowe in Jersey City by Chief Inspector Doy, of this department, shows the presence of the cholera spirillum. The case is therefore one of Asiatic cholera."

The diagnosis has been confirmed by Dr. L. K. Jones, Surgeon United States Marine Hospital Service.

Dr. Benjamin and Dr. Hunt were at the Health Board's office this afternoon when this report was read.

Dr. Benjamin, Health Officer of the Port, and Dr. Edson, have both investigated the case and cannot imagine how Crowe could have contracted the disease.

Dr. Edson said: "The man has worked about the sewers in Jersey City, but has never been near the sewers in which he has it, but we can't tell how he got it."

The man's record is known and nothing points to a suspicious possibility in his case.

Dr. Roberts and Dr. Jenkins were both asked if any precautions would be taken by the city authorities to prevent a spread of the disease, but they declined to answer until the conference with President Wilson.

Dr. Roberts did not think there was anything in the case to cause any great alarm.

The conference took place this afternoon at the Health Department rooms.

Police Commissioner John P. Feeney, who is President of the Jersey City Board of Health, and Dr. Edson, were taken to the hospital, where they had a conference with the health officers.

Free from Yellow Fever.

William H. Haworth, formerly in the employ of the Ocean Steamship Company of this city, has received a telegram from Mayor Laury, of Brunswick, Ga., stating that the last yellow fever patient there is convalescent. The case was reported about a week ago.

It is impossible to trace even a suspicious case now.

HAFTORD STEAMER DISABLED.

Shaft of the City of Springfield Breaks—No One Hurt.

HAFTORD, Conn., Sept. 1.—The steamer "City of Springfield," plying between this city and New York, became disabled on the Connecticut River about 10 o'clock this morning by the breaking of her shaft.

The steamer was towed to Middletown and passengers were transferred to Hartford by rail.

GUTTENBURG ENTRIES.

RACE TRACK, GUTTENBURG, Sept. 1.—The entries and probable starters for Saturday are:

First Race—Purse \$500, for three-year-olds and upward; five furlongs.

Second Race—Purse \$500, for two-year-olds; six and a half furlongs.

Third Race—Purse \$500, for three-year-olds and upward; six furlongs.

Fourth Race—Purse \$500, for three-year-olds and upward; seven furlongs.

Fifth Race—Purse \$500, for three-year-olds and upward; eight furlongs.

Sixth Race—Purse \$500, for three-year-olds and upward; nine furlongs.

Seventh Race—Purse \$500, for three-year-olds and upward; ten furlongs.

Eighth Race—Purse \$500, for three-year-olds and upward; eleven furlongs.

Ninth Race—Purse \$500, for three-year-olds and upward; twelve furlongs.

Tenth Race—Purse \$500, for three-year-olds and upward; thirteen furlongs.

Eleventh Race—Purse \$500, for three-year-olds and upward; fourteen furlongs.

Twelfth Race—Purse \$500, for three-year-olds and upward; fifteen furlongs.

CHOLERA IN JERSEY.

Officially Stated that Martin Crowe Died of the Disease.

Another Suspected Case Now Being Investigated.

New York Health Authorities Consulted in the Matter.
